EDUCATION

Indian Institute of Information Technology (IIIT)
B.Tech in Computer Science and Engineering

Sri City, AP
Aug 2023 – Present | **CGPA: 7.38**

PROJECTS

Happy Tails | *React.js, Node.js, Express.js, MongoDB*

Jan 2025 – Ongoing

- Developing a full-stack pet accessory marketplace and pet events booking.
- Engineered secure RESTful APIs using **Node.js** and **Express.js**, implementing MVC architecture for scalability.
- Collaborated in a 5-member team to build role-based dashboards for Admins, Users, and Service Providers.
- Optimized database queries in **MongoDB** to handle dynamic user data and service bookings efficiently.

Secure Task Management System | *AWS, Node.js, Express.js, JWT*

Sep 2025

- Architected a cloud-native task management system secured with **JWT authentication** for stateless sessions.
- Deployed backend services on **AWS EC2** and managed persistent data using **AWS RDS**.
- Implemented **AWS IAM** roles to enforce least-privilege access control, significantly enhancing data security.
- Integrated **CloudWatch** for real-time monitoring of application health and API latency.

Multimodal Fake News Detection System | *PyTorch, HuggingFace, OpenCV, ResNet, CLIP*

Feb 2026 – Ongoing

- Developing a **multimodal fake news detection system** targeting analysis across text, images, graphs, and tables.
- Implemented **text analysis module** using XLM-RoBERTa for multilingual classification with preprocessing techniques like tokenization, lemmatization, and data augmentation.
- Built **image forgery detection pipeline** using Error Level Analysis (ELA) and fine-tuned **ResNet-50** on CASIA v2 dataset.
- Integrated **CLIP-based image-text consistency checking** to detect semantic mismatches between article content and images.
- Currently working on **graph and table verification modules** and multimodal fusion for improved detection accuracy.

TECHNICAL SKILLS & INTERESTS

Languages: Java, C, C++, JavaScript, Python, SQL

Web Technologies: React.js, Node.js, Express.js, HTML, CSS, REST APIs

Cloud & Tools: AWS (EC2, RDS, IAM, CloudWatch), Git, GitHub, VS Code, Linux

Areas of Interest: Full Stack Development, Machine Learning, Computer Vision (OpenCV)

Coursework: Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, CN

ACHIEVEMENTS

Competitive Programming: Solved **190+ problems** on [LeetCode](#) (Arrays, DP, Trees).

Olympiads: Won **Gold Medal** in International Mathematics Olympiad (School Level).

Olympiads: Won **Silver Medal** in National Science Olympiad (School Level).

CERTIFICATIONS

Full Stack Web Development: [The Complete Full-Stack Web Development Bootcamp – Udemy](#)

Python Programming: [100 Days of Code: The Complete Python Pro Bootcamp – Udemy](#)

EXTRA-CURRICULAR ACTIVITIES

Event Management (College Fest): Coordinated and conducted multiple events during college fest, including organizing games and managing participant engagement.

Vendor Coordination: Interacted with food vendors, negotiated logistics, and facilitated stall setup during the fest, ensuring smooth execution.
